SUMMARY

I am a passionate and results-driven data analyst with expertise in Python, SQL, and data visualization. I am committed to using data to extract meaningful insights and support decision-making processes. With experience in working on diverse projects, I have developed the ability to clearly communicate complex data findings to a range of stakeholders. In addition, I have honed my leadership skills as a team leader for Life Makers Foundation, where I successfully guided teams in executing community-driven initiatives. I thrive in dynamic environments and am always eager to continue learning and contributing to impactful data analysis projects.
